

A traversal of a tree is a consistent ordering of that tree's nodes.

★ In-order traversal : 1, 2, 4, 7, 8, 9

★ Pre-order traversal : 7, 2, 1, 4, 8, 9

★ Post-order traversal : 1, 4, 2, 9, 8, 7

★ Level-order traversal : 7, 2, 8, 1, 4, 9

↑
not good for recursion

} when do I record a parent w.r.t. its children?
suitable for recursion
